LA METRO AREA GREEN MAP

an urban dweller's map to green locations in downtown Los Angeles

Los Angeles Metro Area Green Map

Green Map is a map that locates and promotes sustainable urban features, both natural and man-made. All over the world, cities and towns are being Green Mapped using the globally shared, award winning icons used on this map. See them all at Greenmap.org.

The Los Angeles Metro Green Map focuses on the immediate downtown area and contiguous transit stops in the second largest populated city in the U.S.

Businesses & organizations identified on this map are listed because they provide products and services within the downtown area of Los Angeles that are consistent with sustainable principals. AIA-LA COTE does not endorse any of the products or businesses listed. All information is for reference purposes only. LA Metro Green Map on-line at AIAlosangeles.org.
