## 2008 AIA | LA Design Awards Exhibit

Edgy, inventive, and truly groundbreaking are apt definitions of Los Angeles' architecture. Stellar examples were on display at the opening of AIA/LA's 2008 Design Awards Exhibit, at the A+D Museum on July 17th. A festive cavalcade of guests stopped by to peruse the entries (in their entirety – not just the winners) while enjoying a little nosh and a refreshing martini bar courtesy of Christiania Vodka. For the first year, AIA/LA is also showing entries and winners of the City of Los Angeles Cultural Affairs Commission's Design Awards. The exhibition will be up at A+D until August 20th.
